

The Pilkington Texture Glass Pattern Presenter

PILKINGTON
NSG Group Flat Glass Business

For privacy, pure style or to allow more light into internal rooms, decorative glass gives you a whole range of attractive options. In fact, Pilkington gives you a choice of no fewer than 18 different textured glass designs, together with our premium range of etched glass – from classic to contemporary, no one offers a bigger choice.

The advantages of Pilkington decorative glass are easy to see, too: it allows maximum light while maintaining privacy or obscuring unattractive views, and also forms an attractive decorative feature itself.

Here you'll find all our designs, reproduced to actual size so you can get a clear idea of how they'll look in your windows, with our clock images helping to show the different obscuration level of each pattern.

The range has been divided into three sections, making it easier to find exactly what you want: the standard range, premium Oriel etched glass range and replacement range (older patterns that are still available).

With new texture designs regularly added to offer even more possibilities, there really is no better choice of decorative glass for your home.
